Dear Investigator,

Thank you for the copy of your draft decision and the covering letter.

The first thing I notice is that there is no mention of the height of the shed. I maintain that as well as being built 1m wider than planned, the shed is also 3m higher. This should have been said in the opening paragraph of my submission and I only allude to it in the third paragraph. I am embarrassed by, and can only apologise for the omission as it is central to my case.

I think you will agree that this changes the whole perspective of my submission and will in all likelihood change the STMBC's response. It also makes more sense but there will be little point in me pursuing this with the Ombudsman if the height of the structure is not considered.

Please let me know how to proceed.

Yours sincerely
Michael Dawson
