Dear AR

Thank you for letting me comment on your draft decision about my complaint.

I have set out my reply by making comments against the relevant paragraphs in your draft which is the first attachment. Where I disagree with the Council or where I do not believe what was being presented to be the facts or where I think I might have been misunderstood or just to illustrate a point I have attached copies of emails, drawings etc.

I hope this way of setting up things is OK and am sorry there are so many attachments (list below) but I feel the need to back up all my statements.
If this system does not work from your end please let me know and I will print it all, or parts of it, and post it to you.

Please let me know if South Tyneside Council have responded yet as I wish to publish some of the attachments I have sent you on my Website and to push things that I believe are outside your remit.

Yours sincerely
Michael Dawson
