Hi Melanie,

Remember trying to revive the Tyne Gateway because the Council would not speak to us and the MP's Office appeared to be unwilling to help. The Council, still, will not talk to us because they cannot admit that we were correct when we complained that the shed was too high and they then misinformed the Ombudsman to cover up the misuse of their own complaints procedure.

Emma and I introduced ourselves to each other at a Labour Party meeting and we discovered that the Council were being obstructive with regard to UK Docks to both of us and since that time I communicated with her, initially via her office staff, Rebecca Heath (nee Atkinson) whom I found to very helpful and Cllr Angela Hamilton has taken her place and she is helpful as well.

The last time I wrote to you, in July 2019, it was about UK Docks pretence that they had been given permission, retrospectively, for the shed we now see. I was becoming increasingly frustrated because it was obviously untrue but the Council would not say so. They eventually conceded the point on December the 19th some 7 months after they were first asked the question and I advised Angela and everybody about it on the 23rd.

How here is the spooky thing; I did not copy the acknowledgement to Emma at parliament.uk but to her private email account because I know that emails to Parliament are always bounced during a recess; her emails are now bouncing because I do not live in her constituency yet when I copied her my letter to you in July it did not bounce. Someone, and I do not think it was Emma, has turned acceptance of emails from mick.dawson@theharbourview.co.uk, off.

My email 'Dishonesty at the Town Hall' to her at the end of October 19 bounced but I did not spot it at the time so she will not have received it so I make no apology for sending it again and hope that either Mr Buck or Mr Palmer will bring it to her attention. They may not, Mr Palmer told me over the phone not to bother sending stuff to Emma as they would not action it just, put a note in a file. Now that the Council have confirmed that their was no retrospective given for the shed it beggars the question why did the tell Angela they had been given it.

Maybe the answer is in the other attached file.

Cheers

Michael
