Hello – The Head of Development Services is out of the office at the moment and I have been asked to respond to your email – my colleague from the Building Control Team has confirmed that they sent the completion certificate out on June 17th. The final Building Control inspection was on 13th June.

Regards

Principal Planning Officer

Dear Head of Development Services

Could you verify the date of the issue by South Tyneside Council of the completion certificate to UK Docks for the shed at the River Drive site.

Kind regards,

Melanie Todd

Dear Miss Todd

Thank you for your email.

I know that the company has been undertaking further works to complete the shelter in recent weeks. The Council as Planning Authority is not required to sign this construction work off as this is a matter for Building Control. I have been able to speak with the case officer in Building Control today and can confirm that the completion certificate has been issued.

I hope this is helpful

Kind regards

Head of Development Services

South Tyneside Council

RE:UK Docks River Drive site

Dear Head of Development Services

Could you verify if the shed which has been under construction since 5th September 2013 at the UK Docks River Drive site has now been signed off by South Tyneside Council Planning Department?

Kind regards,

Melanie Todd
