Hello

I have all 279 documents on a disc – please contact me at your convenience and I can make arrangements for your to view these documents.

In terms of the 5 year implementation rule...this is not policy...refer to condition 1 of the planning approval certificate which I sent to you earlier.

I am continuing to check for conformity on site with the planning permission but I am not aware of any height changes.

Give me a call if required

Best Regards  
Peter
